JLG® Ultra Series.
Performance Unleashed.

Steel mills and chemical plants, airports, convention centers, shipyards and heavy construction. JLG® Ultra Series boom lifts are designed for rugged job sites that demand you work higher and reach farther. With four decades of experience, JLG knows the territory. You need the power, reliability and versatility to do the impossible every day. And, come back and do it again tomorrow.

JLG Ultra Series boom lifts get you there. They’re built from 100,000 psi steel—40% stronger than the competition, and they’ll lift up to 1,000 pounds, making them the most powerful booms in the industry.

When you’re working ten stories high, you want a machine that gives you confidence to do your best work; that’s built to perform and that’s designed to meet any challenge—that’s the JLG Ultra Series.
QuikStik® Advantage
Go from full platform elevation to the ground in 115 seconds.

Ultra Mobility
Go where others can’t thanks to the tight turning radius, three steering modes and the only oscillating axle in its class.

Unmatched Range of Motion
With up and over height of 60 ft 6 in. (18.44 m) and 63 ft 2 in. (19.25 m) of horizontal outreach, the 1250AJP gets you where you need to work.

Model 1250AJP
Advantages
- Optimum maneuverability with 4-wheel steer.
- Automatic platform leveling provides operator comfort at 125 ft.
- Dual capacity for more workers, tools or materials.
- Workstation in the Sky® accessories provide ultimate versatility.
The Ultimate in Height, Reach and Power.

When your job demands both height and reach, enlist Model 1250AJP. With over 60 ft of up and over height and 63 ft of outreach, the 1250AJP is ideal for applications that require high-reach versatility. The exclusive QuikStik® boom design provides faster cycle speeds—115 seconds from ground to elevation—so you can get work done quickly and efficiently. JLG Ultra Series boom lifts come with the only oscillating axle in their boom class, giving you surprising mobility in an ultra-sized package.
Taking Productivity to Greater Heights.

Dominate the job site with the JLG Ultra Series. When you’re facing tall challenges, you want a solid machine that goes above and beyond the day’s demands. The rugged boom gives you the confidence and support you need to handle 1,000 lb capacity. The exclusive controlled arc regulates speeds at the edges of the work envelope so that you feel the same velocity in all positions for enhanced comfort.

Conquer Rough Terrain

With the tightest turning radius, best crab steer ratio and only oscillating axle in its class, you can go where other boom lifts simply can’t.

Ultra Series Telescopic Advantages

- Full-time four-wheel drive gets you over rough terrain.
- SkyPower,* a 7,500 watts on-board generator.
- Envelope tracking system regulates speeds at work envelope edges to enhance your comfort.
- JibPLUS® boom allows the platform to reach around corners.*

* Capacity restricted to 500 lb (227 kg) when the jib is in side-swing mode.
* JibPLUS for transport only for 1500SJ.
Extend Your Reach with the 1500SJ

The Model 1500SJ is the largest self-propelled telescopic boom available from JLG—the first straight boom lift that takes you to 150 ft without an oversized load permit (over weight permit is required for highway transportation.) The 1500SJ features a telescoping jib for greater work envelope flexibility and additional outreach at elevation.
**Ultra Series**

**TELESCOPIC BOOM LIFTS**

**More Capacity**
With a dual 1,000/500 lb capacity, the platform can handle more workers, tools or materials.

**Larger Work Envelope**
With more outreach above 50 ft, you have more access and flexibility.
Oscillating Axle

Standard on all Ultra Booms, oscillating axle and full-time four-wheel drive provide superior traction.
Workstation in the Sky® Accessories.

Transform your Ultra Series boom lift into a versatile, productivity-enhancing machine with exclusive Workstation in the Sky® products. Our accessories are built to conserve platform space, improve working conditions and turn your lift into one giant work tool.

**SkyPower® Package**

The SkyPower system includes a self-contained 7500W continuous output generator with a power cable, and an air/water line installed in the power track. In addition, it provides self-contained 110V AC, 220V AC, and 3-phase power to run hand tools and other JLG Workstation in the Sky® accessories.

**SkyWelder® Package**

With a Miller® CST–280 welder tucked into the SkyPower boom platform, space is conserved while providing stick and TIG capability.

**SkyCutter® Package**

Eliminating the danger of draping tanks and hoses, SkyCutter cuts faster and cleaner with an on-board Miller® Spectrum 375 Cutmate plasma cutter.

**SkyGlazier® Package**

The first and only factory-approved glass and panel tray. Panels are protected from damage and productivity is improved while operator fatigue is reduced. And, with JLG 1,000 lb capacity, the basket can hold multiple workers and larger glass panels.

**SkyAir® Package**

With an integrated on-board air compressor, the SkyAir package delivers 9.3 CFM at pressures up to 125 psi. It increases productivity by eliminating the need for a ground-based compressor.

**Nite Bright® Package**

This package consists of 40-watt lights to illuminate your work site plus the area around the chassis for increased visibility. It is perfect for tunnel or mine applications, nighttime work or any job with low lighting levels.
Putting Your Work Above Everything.

When it comes to JLG® Ground Support, it’s all about you. Your productivity. Your profitability. Your uptime. From the purchase of your first piece of equipment straight through to the training, parts and maintenance that follows.

Customer Service Call Center
You can be assured we’ll be giving an all-out effort to support you. Just think of us as your personal on-call, full-service support team. We make it happen. Period.

Financial Solutions
Maximizing your profits. Preserving your cash flow. Let our financing specialists help choose the program designed specifically for your needs.

Aftermarket Parts
Keep your equipment running at peak performance with genuine replacement parts, accessories, attachments, rebuilt and competitive parts all from one source—JLG.
